UNITED STATES DEPARTMENT OF AGRICULTURE

Bureau of Agricultural Economics

OREGON

A Preliminary List of the Sources of Agricultural
and Related Statistics of the State

Compiled by Lucia Haley
Assistant Librarian
Oregon State Agricultural College

In Cooperation with
The Library, Bureau of Agricultural Economics

Washington, D. C.
November, 1927

INTRODUCTION

This list represents material which should be examined in indexing statistics, principally on agriculture, relating to Oregon. The sources are of very unequal value, as all available publications have been included as far as found. Their evaluation is left to the economists who make use of the figures. Suggestions for additions or corrections are invited.

The compilation has been made for the most part from the files of the Oregon State Agricultural College Library, but special thanks are due to Miss Ruth Rockwood, of the Library Association of Portland, for information on Oregon state publications. The card catalog of the Oregon State Library was also consulted, as well as the Agricultural Index and various United States government publications.

The call numbers given are those of the Oregon Agricultural College Library.
